WHOLESALE PRICE LIST 1932

# NEW BEAUTIFUL IRIS

FEB 20 1932

"MIDGARD" "EUPHONY" "CLARA NOYES"

## COOLEY'S IRIS GARDENS

R. M. COOLEY

810 NORTH WATER STREET
SILVERTON, OREGON

C. J. COOLEY

# VISIT OUR GARDENS

The Bearded Iris are usually at their best from May 10th to 25th. Although we must admit that we cannot boast a lovely display garden, with attractive landscape features, we do lay claim to one of the most complete collections of truly modern fine iris to be found anywhere. Our stock is well grown, and we take pride not only in the high quality of bloom which will greet the visitor, but in the growth of rhizome and leaf, which, after all, is the really important thing as far as the purchaser is concerned. Our planting of Japanese iris will be at its peak the latter half of June, and the two-year clumps give promise of a riotous display of color next summer.

Three years ago Mr. R. M. Cooley began a series of travels during the annual iris flowering season, and has covered almost every section of the United States where iris breeding and growing on a commercial scale is indulged in. From the palm shaded, citrus scented gardens of California to those in staid old Boston and environs; from Kentucky and Virginia, both just oozing southern hospitality, to St. Paul in lake-dotted Minnesota; from our own Pacific Northwest to Freeport, Illinois, and its great iris show; from New York and Long Island to the great middle-West with its Sass Brothers, and Cincinnati amateurs, and Indiana hybridizing wizards. If only Nashville and a couple of points in Colorado were added, the survey would be almost complete.

It has been a pleasure indeed to meet and talk with such men and women as Dr. S. S. Berry, Mr. Salbach, the Sass's, Mr. Shull, Miss Sturtevant, Mr. Wayman, Mr. Williamson, Dr. Kirkland and Mr. Connell, Dr. Ayres and Mr. Wareham, Col Nicholls, Mr Lapham, Mrs. Rowell, Prof. Hill, Mr. Simpson, Mr. Sheets, Mr. Grinter, Mrs. Keller, Mrs. Emigholz, and a few others, all of whom are numbered among America's introducers of fine irises. And likewise the gardens and personalities of such well-known growers as Mrs. Pattison, Mr. Milliken, Mr. Wister, the late Mr. Sehreiner and his son Robert, Mr. Boehland, Mrs. Kellogg, Virgil Johnson, Mr. Gage, Mrs. Lothrop, Mr. Wassenberg, the Essigs, Mr. Wilkus, Mrs. K. L. Browne, Mr. Bonnewitz, Mr. Mead, Mr. Bretschneider, and a host of others have provided many, many hours of supreme enjoyment. The pleasant memories of these visits will remain always, and the mental picture of the scores of colorful iris gardens looms before the writer like a huge patch-quilt, kaleidoscopic in form and tint.

And now on the following pages you will find listed the cream of the tens of thousands of iris seen and admired during the course of these iris hunting adventures. The new seedlings offered, the foreign novelties listed, and the numerous American introductions to be found herein, are now growing in our gardens because they were deemed to be especially outstanding and worthy of a place in any garden. They are the varieties which have won the medals and certificates, the praise from critics, and the plaudits from those fanciers who have already seen them. They are the irises which the public will want to buy, and which the alert and up-to-date grower will want to supply.

# TERMS, Etc,

This list is intended for the wholesale trade only, and is placed in your hands at this time so that you may have an opportunity to include items in your own catalogue which you possibly do not grow yourself, or which you have in insufficient quantity. We make a specialty of growing irises for the wholesale trade, and supply only first quality Oregon grown rhizomes suitable for resale, and which can be depended upon to bloom the first year after planting. Our stock is NOT IRRIGATED and NOT FERTILIZED, and the remarkable size and quality of our rhizomes is only the result of clean and intensive cultivation on good soil and a favorable climate.

**Terms:** 15% cash with order, 15% on June 1, and 20% on July 1, 25% on August 1 and September 1, PROMPTLY. Such an arrangement permits you to realize a return on the stock before paying for it in full. These are the most reasonable terms offered by any grower, and we ask your co-operation by making your payments exactly according to the above plan.

**Discounts:** 15% may be deducted on all orders placed before February 20 and accompanied by cash in full. After that date, all orders fully paid for prior to June 1 are entitled to 5% discount.

**Shipments:** We begin shipping orders about June 20. If you want your order sent later in the season, or on any specific date, we shall carry out your instructions. Early shipments permit plants to become established before winter sets in, but rhizomes are not as large as they would be in August. We prefer to ship around July 10 as an ideal time. POSITIVELY NO SPRING SHIPMENTS MADE.

**Transportation:** Prepaid express or parcel post, whichever we deem most expedient. Be sure and state your express office, if different from postal address. We pack in dry excelsior in well ventilated cardboard cartons and guarantee safe delivery to point of address. All shipments are insured. Remember, we PREPAY all costs,—the prices quoted herein are for delivery to your door.

**We Guarantee** all rhizomes true to name, first size, free from disease and pests, and to reach you in live and healthy condition. We do not guarantee them to live or grow in your garden under conditions over which we have no control.

**Reference:** The First National Bank of Silverton, Oregon.

# NEW FOREIGN IRISES

*First Time Offered in America*

The half-dozen foreign novelties listed below have never been for sale by any American grower, and we are proud to be the first to list them. While our catalogue contains many other meritorious introductions from French and English growers, notably such things as Depute Nomblot, Vert-Galant, Frivolite, and Senlac, these varieties were of course available from a few sources last season.

The following six irises are growing under Federal import permit, and sales are subject to release about the first of July.

AMBER WAVE

## Phebus

A new yellow from Cayeux. Unlike Pluie d'Or, this iris is a uniform shade of lemon yellow, absolutely pure. Fine rounded flower of good size, over three feet tall. The lemon color introduces a new tone in iris of this class. Phebus was the high spot in French introductions in 1930, and was priced at one thousand francs. It is a very rapid increaser.

**Each $15.00; three for $40.00**

## Amber Wave

The A. I. S. bulletins have for two years carried the endorsements of Americans who chanced to see this novelty flowering in England. It is a luminous amber yellow self, suffused and shot with olive bronze. The falls have a lovely faint velvety violet blue flush at the haft, which is heavily reticulated. The whole flower is perfectly proportioned and well balanced, with very broad standards and falls, which characteristic it owes to one of the parents, Mrs. Valerie West. Height 3 feet. Very late. Amber Wave is another iris which received a silver medal award at the London show last year.

**Each $12.00; three for $30.00**

## Dogrose

A very beautiful, superb pink iris, with very large, oval shaped flowers in a uniform shade of soft pink, with deep gold beard. The stalks are almost shoulder high, and in the English trial grounds at Wisley it proved a sensation. American visitors at the English shows were struck with its beauty. Dogrose was awarded the silver medal at the London show when exhibited as a seedling in 1929. Very limited stock.

**Each $12.00**

## Carfax

This striking iris, produced on stems that branch four-way, six to eight in number, is heralded in England as an advance in iris breeding comparable to the introduction of Dominion. The blooms are huge, splendidly formed, and in color are a rich auricula red purple. The beard is inconspicuous, there being nothing to detract from the intense richness of the velvety falls. Height close to 4 feet. Carfax is another silver medal winner.

**Each $12.00; three for $30.00**

## Columbine

Introduced as a white Aphrodite, one of the parents. As clean and clear as a crystal, with lovely form, slender branching stems, this free flowering white is distinct from all other white irises, and as a result it was awarded the silver medal at the English Iris Society's exhibit in London in 1930. Columbine is a very fast multiplier, our own stock increasing about fifteen to one in two years.

**Each $6.50; three for $15.00**

## Hassan

This is a seedling of Zulu crossed with Moonlight, carrying the Dominion form and substance of the former and the general color tone of the latter. The standards are a glistening sulphury yellow, the falls quite similar, overlaid and suffused smoky violet with heavy greenish gold reticulations on white at the haft. Certificate of merit at the London show in 1930.

**Each $6.50; three for $15.00**

## SPECIAL GROUP OFFER

**One each of the above six new foreign novelties which aggregate a value of $64.00 for $50.00**

# Recent INTRODUCTIONS *of* DR. W. McL. AYRES

Cincinnati, Ohio

MELDORIC. His most outstanding production to date. Has been a sensation in his garden for three years past, as well as a favorite with those who saw it flower in England. Meldoric combines the richness of Dominion with the size and majesty of Mesopotamica, without the tenderness of the latter strain. The flowers are blue-black in effect, colossal in size, with broad flaring falls and standards of huge size and darkest hue. This magnificent iris carries the endorsement of such prominent authorities as Mrs. Peckham, Dr. Waller and Mr. Bretschneider.

**Monster rhizomes, each $18.00**

## VENUS DE MILO

A white Dominion seedling. Out of perhaps a dozen superb whites, all large, tall, and in varying degrees of purity and color, this one has been selected this past blooming season as the best. It is an absolutely clear white, of a warm creamy tone, with a yellow beard. In size it is much larger than any hardy white we have seen, with exception of Wambliska, which has a distinct blue flush in the standards. VENUS DE MILO has petals of extra heavy texture; in fact, it stood up better in a 90-degree sun than any other iris in our garden. This is introduced at an exceptionally low price for a super iris. It is a rapid increaser, and thus a low introductory price is permitted.

**Each $8.00; three for $20.00**

## ZUNI

A glorious, glowing red-brown, overlaid with a coppery suffusion. Very early, but with so many buds to the stalk that it lasts well into the season. The falls are a brilliant red when seen with the sun's ray through them, and the standards seem as if sprinkled with gold dust. This is one of the most outstanding new varieties seen in the writer's tour of over 10,000 miles the past blooming season. Large in size, well branched, and about 40 inches in height.

**Each $8.00; three for $20.00**

## TAPESTRY

A subtle blend of monster size, smoky mulberry in general color effect, with the center of the fall intensely colored, passing out to the smoky tones of the standards. This variety calls to mind Dr. Ayres' famous "Persia," but the dominant note is dull red instead of dull blue. TAPESTRY is a favorite of Mrs. Ayres, who admired it especially as a cut flower in the house.

**Each $8.00; three for $20.00**

## SPECIAL GROUP OFFER

Meldoric, Venus de Milo, Zuni and Tapestry, four gems of the modern iris world, for $35.00.

MELDORIC

# Our 1932 Introductions

## CROWN PRINCE

*Raised by* DR. R. E. KLEINSORGE
Silverton, Oregon

For years Dr. Kleinsorge has been working for a true variegata with giant size, Dominion form, and on a tall and well branched stem. Crown Prince is a supreme achievement, and no other variegata seen in the four corners of the country compares with it. The standards are a solid deep orange-yellow, the falls solid velvety brownish-red. Crown Prince has every desired characteristic. It is the variegata that not only the Doctor has been looking for, but every other iris connoisseur as well. Very few plants.

**Each $25.00**

## ELOISE LAPHAM

*Raised by* MR. E. G. LAPHAM
Elkhart, Indiana

This delightful pink iris was discovered upon the occasion of my first visit to Elkhart in 1930. The color is indescribably soft and smooth, an even tone of delicate flesh pink, and the substance is like kid. The flower itself is about the size and shape of Midgard, and of medium height. As a clump in Mr. Lapham's garden it drew instant attention, and its rapid increase and freedom of bloom will be sure to make it a great favorite.

**Each $10.00; three for $25.00**

# NEW WHOLESALE PRICES ON IRIS

TO THE TRADE: Early in February we issued our regular catalogue for 1932 to Iris Dealers, and as you are now on our mailing list it is presumed that you received a copy. Our prices at that time were conceived to be about on a level that would prevail for this season, but since that time there has been a general revision of prices downward,—growers thruout the country seemingly trying to outdo each other in the matter of price reduction.

Within the short space of two or three months from the date of issue, our catalogue prices to the trade were even higher than the *retail* quotations of many other growers. As a result, we were obliged to enter the retail field, and you will find enclosed herewith a copy of our retail catalogue.

We are now prepared to accept orders from iris dealers on a discount basis as follows:

**1 RHIZOME 25% off the Catalogue price**
**3 RHIZOMES 35% off the Catalogue price**
**10 RHIZOMES 40% off the Catalogue price**

All selections to be made from this Retail List.
All quotations in our original wholesale list are hereby cancelled, with exception of the Japanese Iris list, which remains the same.

---

We are SOLD OUT of the following, so please don't include them in your order:

Allies
Apache
Ballerine
Belisaire
Blackamoor
Brittoness
Cameliard
Candlelight
C. E. Stringer
Coppersmith
Desert Gold
El Capitan
Germaine Perthuis
Golden Promise
Grace Sturtevant
Jean Chevreau
King Karl
King Tut
Labor
Los Angeles
Mary Barnett
Michelline Charraire
Midwest
Moon Magic
Nebraska
Nene
Omaha
Peerless
Realm
Red Dominion
Rosa Bonheur

Wm. Mohr
W. R. Dykes

**A REAL BARGAIN FOR SMALL DEALERS: One each, MRS. VALERIE WEST, PLUIE D'OR, and SIR MICHAEL, for $6. Finest size, whopping big rhizomes, sure to bloom next season. You'll have to hurry!**

# ANNOUNCEMENT EXTRAORDINARY

## The Famous Wareham Seedlings

Ever since the ascendency of the Iris as a popular flower in this country, the marvelous seedlings of Mr. John D. Wareham, grown on the estate of Mrs. Samuel Taft in Cincinnati, have been admired and discussed by everyone who has visited the Taft gardens. Members of the American Iris Society have tried without avail over a period of many years to induce Mr. Wareham to allow some of his productions to be put into commerce, but up until recently he has steadfastly hung onto them. His progress in yellows, using the Dominion strain in his work, has been especially outstanding, and visitors have expressed amazement at his recent developments.

Last summer arrangements were made with Mr. Wareham whereby we were given the privilege of introducing the following five varieties, and they are offered as the best in their respective color classes which he has thus far turned out.

### Alchemy

This production, which has created comment in the Taft garden during the past three years, is undoubtedly the finest yellow iris ever introduced in America, possibly in the world. This writer has seen most of the new yellows now in commerce, including Jason, Daffodil, G. B. Baker, and the various deep yellows listed in this catalogue, and Alchemy easily stands at the top of the list. The stems are tall, well branched, and bear a goodly number of solid, deep yellow blossoms, heavy of texture and wonderful in form. The flowers are considerably larger than Pluie d'Or. See Miss Sturtevant's article in A. I. S. bulletin No. 38, pages 36 to 40.

**Each $35.00**

### Eothen (Out of the East)

Soft, ivory-yellow, entirely overlaid buff, producing an effect of rich antique ivory. Typical Dominion shape, the falls flaring widely, and with domed standards. Large blooms, freely produced, make this a marvel in the garden picture.

**Each $20.00; three for $50.00**

### Tiger-Tiger

Wareham's finest red, a brilliant iris of a shade entirely distinct from Dauntless. The very large blooms are rather rounded in shape, abundantly borne on three-foot stems. Splendid as either a specimen or a garden clump.

**Each $15.00; three for $40.00**

### Mabel Taft

A giant Dominion violet blue, particularly outstanding among irises of this color class. Long admired by critics visiting the Taft estate, and Mr. Wareham has always been urged to introduce this.

**Each $10.00; three for $25.00**

### Legend

Huge flower of crimson claret, and which has also been a favorite of Iris Society visitors. This rounds out the set of introductions from this famous collection.

**Each $10.00; three for $25.00**

## SPECIAL GROUP OFFER

**One each of the above new Wareham seedlings, the total value of which is $90.00, for $75.00**

"Your irises arrived in fine shape, and they are fine specimens. You are very generous and surely will receive some future orders from Hearthstone."

M. B. DOUB,
Hearthstone Farm,
Hagerstown, Md.

"Shipment of irises has been received in excellent condition. Many thanks for the nice stock and liberal count. Hope I can give you more business in the future."

W. A. PAYNE,
Terre Haute, Ind.

"Thanks very much for the splendid roots received yesterday in perfect condition in spite of the heat wave. I surely was surprised and grateful to get such a grand rhizome of Wambliska."

MRS. E. L. SCHEFFY,
W. Mansfield, Mass.

"The iris arrived in good condition and I never saw better roots. I quite envy your land that will produce such fine rhizomes."

MISS GRACE STURTEVANT,
Wellesley Farms, Mass.

"The four Ayres seedlings arrived today by parcel post in fine condition. I was amazed to find such wonderful rhizomes as you send out on such recent introductions. How do you grow them so big?"

E. H. BRETSCHNEIDER,
Riverby Iris Gardens,
Columbus, Ohio.

"Many thanks for the fine iris roots received the other day, and for the extra one."

J. D. LONG,
Boulder, Colo.

# RECENT NOVELTIES AND SPECIALTIES

In the following list will be found most of the irises now in the limelight, many of them introduced only during the past year or two, others less recent, but riding the wave of popularity. Realizing the high quality of these particular sorts, we have built up fairly good-sized stocks of most of them, and are now in a position to supply splendid rhizomes in reasonable quantity and at attractive prices to the commercial iris dealer. Every one is a gem.

## Dauntless

The peer of all red irises, a Dykes medal winner in America, and certainly one of the finest things ever introduced. The blooms are of great size, on tall stems, and flower over a long season. In color Dauntless appears much redder than most other so-called red irises, due partly to the fact that it carries a mixture of orange and brown in its pigment and very little blue or purple. Across the garden it glows like fire. It was the finest variety seen in New England last season.

**Each $6.50; three for $15.00**

## Desert Gold

A very early, very large, and extremely fine addition to our growing list of yellow sorts. Desert Gold is not a deep yellow, nor is it a pale yellow comparable to anything we now have in this class. Standards are large and domed, pure light yellow. Falls are extra broad, flare widely, and are a very light yellow, but the central portion is of an unusually brilliant chrome, with a heavy, deep yellow beard, and this makes for an effect not present in any other yellow. Desert Gold was one of the finest new irises seen on my trip this past season, and while it is not the best yellow, it certainly is deserving of a position among the best new introductions. Nothing else like it.

**Each $10.00; three for $24.00**

## Egypt

A grand iris of immense size and great substance, enduring wind and rain, as well as a strong sun. The flowers are of Mme. Gaudichau shape, but measure over five inches from top to bottom. Broad standards, stiff and erect, of a livid bronzy-violet. Falls very large, long and drooping, of deep velvety maroon-purple, with black sheen. Bright gold beard. Very little reticulation. A robust, free blooming, very tall and well branched new English variety from the firm of R. Wallace & Co.

**Each $5.00; three for $12.00**

## Goldilocks

Uniform yellow of a smooth, soft finish. Last June I saw a splendid clump of this blooming in Mr. Wayman's garden. Not only is it one of the loveliest yellows we have, but the style and finish of the flower is especially pleasing. It was loaded with blooms, on three-foot stems, and the low and numerous branches make it a showy subject in the garden. An extra rapid increaser of unquestionable hardiness.

**Each $20.00; three for $50.00**

DAUNTLESS

## Frivolite

This French introduction is offered as a great improvement upon the variety Marquisette. The general effect is one of rich and brilliant shrimp-pink, the entire blossom seemingly dusted with gold dust. Mr. Sherman Duffy, eminent iris authority and writer, states in Bulletin No. 41 for October, that during the past blooming season Frivolite made a distinct impression upon him, and that he considered it the finest thing in its class. A very lovely and unique novelty. Rapid of increase.

**Each $6.50; three for $15.00**

## Indian Chief

Well named, for while classed as one of our superior reds, it carries a bronzy overcast, being regarded by some critics as a red blend. At any rate, Indian Chief is one of the most popular of the newer things, and a credit to Doctor Ayres, its introducer. A stalk of this was exhibited at the Boston show, and was one of the most talked of irises in the entire display. The velvety falls are deep blood-red, blended with bronze, and the standards are considerably lighter in tone. A large flower, quite tall, and very well branched.

**Each $5.00; three for $12.00**

HANS SASS IN HIS GARDEN

## Melchior

In many ways this was the outstanding iris blooming in our gardens in 1931. The deep velvet-maroon flowers left nothing to ask for in either size, shape, or all-round iris perfection. My own color description would be "a self of velvety-garnet, with beard of bronze-yellow." Melchior was introduced in England as an improved Mrs. Valerie West, but with us it is distinctly different, and we personally regard it as one of the world's very best.

**Each $5.00; three for $13.50; ten, $40.00**

## Gold Top

Introduced by Carl Salbach last season. Rich old gold standards, set off by falls that are red violet in the center and edged old gold. The style arms and beard afford a further touch of gold. Blooms very early and continues all through the season, the colors growing richer as the season advances; 42 inches tall and well branched. To me, this iris presented the novel appearance of being fashioned out of brass, because of the odd brass-yellow color effect. You surely will like it.

**Each $6.00; three for $15.00**

## Depute Nomblot

The world's greatest iris. Blooming for the first time in America during the season of 1930, it almost bowled over all who saw it. During the past season it has proven worthy of first impressions, and from England and France, as well as from all sections of this country, come songs of praise for this imposing giant of the race. Standards light glowing rosy-purple, overlaid bronzy-gold. Falls very wide, spreading, purplish garnet-red, shading to lighter rosy-bronze at the edge. Deep orange beard. Over four feet tall, wonderfully well branched. Depute Nomblot received a certificate of merit in 1929 at the Paris show, and in 1930 was awarded the Dykes medal.

**Each $20.00; three for $50.00**

## Vert-Galant

Like Damon and Pythias, Vert-Galant and Depute Nomblot are usually seen together—they are "pals inseparable." This one is in a distinct shade of brilliant copper-red, with coppery fawn standards. In a California garden in 1930 I found one rhizome putting forth four huge stalks. Last year it was the largest and most outstanding thing in Mr. Wister's Philadelphia garden. In the garden of Robert Schreiner in St. Paul it was likewise of stupendous size, its second similar performance there. The brilliant copper tone has extra good carrying quality, and the four-foot spikes dominate the garden. Another Dykes medal winner.

**Each $15.00; three for $40.00**

## Clara Noyes

A lovely warm blend from Hans Sass. At the time of my visit to his garden in 1930 I selected this as my favorite, and was equally impressed again last season. It was the favorite of all visitors to our own planting last May, and all of our available stock was quickly sold out. The coloring is a medley of peach and apricot tones, suggesting perhaps the rich and brilliant blendings of the rose "Talisman". Sherman Duffy says of it: "Perhaps the most strikingly colored of all the new irises I saw this year and one that attracted attention wherever shown. A very brilliant and beautiful iris that everyone wanted at sight." See reproduction on cover.

**Each $6.50; three for $15.00**

## Euphony

The Sass Brothers have given us, of late years, a series of irises of the Ophelia type, ranging in tone from deep yellow-browns to pale yellow-pinks. Euphony is one of the most beautiful and distinct of all this series. The standards are mustard yellow, waved and fluted, stained with light brown at the tips. Falls are squarely held, mustard yellow, flushed with blue in the central portion and overlaid soft brown. This is a lovely and bright color harmony, and the great freedom of bloom of this variety makes it a heavy favorite. See color reproduction on cover.

**Each $1.50; three for $3.75; ten, $10.00**

WAMBLISKA

## Wambliska

The huge white self, raised by Jacob Sass of Omaha, Nebraska. This was the most sensational iris of 1930, and is being proclaimed by all who have seen it as the greatest hardy white in the world. Few irises in existence are larger in size, and it flowers abundantly on four-foot sturdy stems. A faint blue flush at the base of the standards gives it a cool appearance, rather than the warm effect of creamy whites like Purissima, Michelline Charriere, etc. It is certain to enjoy world-wide popularity, because of the tenderness of our present super whites in many sections.

**Very few rhizomes for sale; each $12.00; three, $30.00**

## W. R. Dykes

No iris has come to us from any source that has carried greater advance publicity, and it is doubtful if any has created as much comment. Here is a yellow iris that ranks with the very largest in size, with heavy crepey texture, and a color of richest golden-yellow. The falls are usually stained and streaked lightly with purple. In some flowers this is not evident at all, but the beauty of the blossom is not marred in the least. It has flowered well in almost every section of the country, but it does demand perfect drainage. Cold temperatures do not seem to harm the plant. A great novelty.

**Each $18.00**

THE NEW VARIETY "CLASSIC"
IS AN IMPROVEMENT
ON THE ABOVE
ASIA

## Allies

An autumn flowering iris that, with us at least, has not only bloomed in the spring and fall, but throughout the summer as well. Those who already have among fall bloomers the white, purple, and yellow varieties from the Sass Brothers, will welcome this French variety, because it adds a different color note—one of red-brown and fawn, with some of the pigment found in Dauntless, although by no means as red. Rhizomes are usually quite small, but the flowers are of large size, and there just seems to be no end to its blooming possibilities.

**Each 85c; three for $2.25; ten, $5.00**

## Classic

This was a "find" in the writer's trip through the mid-West in 1930. A gorgeous thing of the Asia type, of Dominion form and texture, with wide, flaring falls, and a stiff, cane-like stem. The huge standards appear to be fashioned out of gold leaf, gradually shading to reddish-lavender in the upper portion. The beard and center of the flower glows so vividly that Mr. Grinter, the hybridizer, says that when he looks into it, it almost seems to be alive. Classic is distinctly different from the average run of introductions, and we heartily recommend it. We sold out entirely on this last year.

**Each $17.50; three for $45.00**

## Senlac

Introduced by the Orpington Nurseries in England, this richly colored iris stands out as the reddest yet to come from that country. With blooms larger than the best of the Dominion race, it carries its brilliant claret-red flowers on strongly branched stems, and is so highly regarded in England that it is rated at 91.

**Each $18.00; three, $45.00**

## Andante

The Longfield Iris Farm introduced Andante in 1930 as a greatly improved Germaine Perthuis. It bloomed for us this last season and was one of the surprises of our garden. The great, black buds unfolded into flowers of perfect form and wondrous beauty. General effect is darkest purple, with very bright orange beard. One of the excellent features is the almost total absence of veining.

**Each $4.00; three for $10.50**

## Beau Sabreur

A rich variegata introduced in 1930 by the Longfield Iris Farm. Bright orange-yellow standards, lightly stained bronze; falls very rich and velvety, of deep red-brown. This is a very rapid increaser, a single rhizome making a clump in one year's time. The new "Crown Prince" is a flower of this type, but of much greater size and height.

**Each $3.50; three for $9.00; ten, $25.00**

## Caroline E. Stringer

A few years ago the Sass's gave us this lovely apple blossom pink—a pink so pale and delicate that it is almost a tinted white. It still stands as one of the really exeellent things in fine iris, and at the present very low price no one should be without it.

**Each 65c; three for $1.50; ten, $4.00**

## Coronation

For those who do not feel like investing in the newer yellows offered in this list because of the higher cost, we sincerely recommend Coronation. It is a uniform deep yellow, absolutely hardy, doesn't fade, and compares well with irises of recent introduction in other colors. Our large stock has been built up to meet the demand which we felt sure would come when growers realized the value of this yellow.

**Each $1.50; three for $3.75; ten, $10.00**

## Dolly Madison

With the blended colorings of an intensified Quaker Lady, and size, branching habit and height comparable to the best, this Williamson introduction has no superior in its class. As the Longfield catalogue states: "Eventually you will own Dolly Madison." It carries some of the shades found in the new French varieties, Anne Marie Cayeux and Evolution. Reliable everywhere, and certain to evoke the admiration of all who see it.

**Each $1.50; three for $3.75; ten for $10.00**

## Frieda Mohr

Dependable anywhere, despite the fact that it was originated in California and contains tender blood. I have found it perfectly at home in Ohio, Minnesota, and New England, as well as in the moist climate of the Pacific Northwest. The color is a lively shade of violet-pink, standards slightly lighter than the falls. Its huge size and great height make it a leader in any eolor class.

**Each $1.00; three for $2.25; ten, $6.00**

## King Tut

One of the inherent qualities of the many new Sass irises is the element of rich red-brown in the various color schemes. This has been accomplished through the use of King Tut in the various erosses, and in spite of his almost countless progeny, the King still remains the most brilliant of all, blazing in the sunlight like a live ember. Easy to grow, a free flowerer. Every iris grower should have it.

**Each $1.00; three for $2.70; ten, $7.50**

## Montour

This little gem was growing in Mrs. Kellogg's famous garden (Over-the-Garden-Wall) in a group including Dauntless, and it struck me at first sight as an abridged edition of the giant red. The colors are more subdued, a medley of deep pink and brown, set with a bright orange beard. Fine for the front of a planting where taller sorts are used in the background. Montour is perfect in every detail, in a class entirely apart from most irises of dwarf stature.

**Each $1.00; three for $2.25; ten, $5.00**

WM. MOHR

## Wm. Mohr

This strange and beautiful hybrid is named for one of the world's most famous hybridizers, and is considered as his greatest piece of work. The entire bloom is a self color of pale lilac, closely netted and veined with deep violet, producing a weird, yet very lovely effect. In some ways it resembles the variety "Susiana", but lacks the dullness of this older sort, and is not at all difficult to grow. A monster flower, produced on stems up to 30 inches tall. At the iris show in St. Paul, Minn., last June it was a center of attraction.

**Each $1.00; three for $2.55; ten, $7.50**

## Pluie d'Or

A beautiful iris, on slender, perfectly branched stalks well over three feet tall. Fine rounded flowers of solid golden yellow, with deep yellow beard. Winner of the Dykes medal in Franee, it has proven an outstanding variety of this color both in Europe and America. Wherever I went last spring I found hybridizers at work with erosses from this variety, an indieation of the regard in whieh it is held by our foremost introducers.

**Each $5.00; three for $13.50; ten for $40.00**

Large stock permits this very low price.

MRS. VALERIE WEST

## Mrs. Valerie West

Of the long line of Dominion seedlings put out by Mr. Bliss, he considers this his crowning achievement. It combines the rich colorings of Bruno and Cardinal into a flower of greater size on a taller stem, widely branched, and produces its enormous blossoms in great profusion. Heretofore the price of this has been almost prohibitive for widespread distribution, but our stock has increased so that we are able to offer it at the following unprecedented low price: **Each $4.00; three for $10.50; ten, $30.00**

## Loetitia Michaud

Gigantic in size, perfect in every detail, this iris retains its popularity in spite of numerous competitors. Of an even tone of soft lobelia-blue, a little deeper than the blue of the sky, a light yellow beard for contrast. This ofttimes grows shoulder high, and is one of the many irises classed as tender that can be depended upon to thrive in almost any section of the country. Among the indispensables.

**Each 85c; three for $2.25; ten, $5.00**

## Midgard

Three years ago this was hailed as the best production ever turned out by the Sass Brothers. The yellow-pink blended flowers introduced a new color note, and it became immediately so popular that there has never been sufficient stock to supply the demand. It is one of the most reliable new varieties for severe climates, besides being a very free bloomer and rapid multiplier. Its future is assured.

**Each $1.50; three for $3.75; ten for $10.00**

## Omaha

A beautiful coral-red self, with orange beard, producing a very striking contrast. Blooms are extra large and of lovely rounded form. The color effect is deep and brilliant pink, rather than red, and the petals have a glistening and fragile appearance, although on the contrary they stand up perfectly. A considerable novelty in color, and one of Sass's finest. Height about 30 inches.

**Each $1.00; three for $2.25; ten for $6.00**

## San Francisco

A four-foot plicata that has been awarded the Dykes medal by the American Iris Society. No other plicata approaches it in size and grandeur, heaviness of texture, or wide and low branching habit. It is not an iris for severe climates, but is worth the protection of a box or glass covering during the winter. In warmer sections it grows perfectly and is one of the truly "greats" of the iris world. At the price quoted it is worth trying even if you fail with it.

**Each $2.00; three for $5.25; ten for $15.00**

## Santa Barbara

Here we have an iris which approaches perfection in the shape and size of its flowers, and in addition is possibly the finest and clearest lavender-blue so far introduced. The exhibition rating of 91 is well deserved. Having been in commerce sufficiently long to become fairly plentiful, it can now be bought at the following surprisingly low prices:

**Each 50c; three for 90c; ten for $2.00**

## Sikh

Although this iris was introduced in England only last summer, we were fortunate enough to secure it two years ago, and now have a large supply of well-grown plants. The color and form somewhat resemble Bruno, but is both more brilliant and coppery. Of largest size, on heavy stems, with broad foliage. It bloomed in the fall in our gardens.

**Each $2.50; three for $6.00; ten, $17.50**

## Sir Michael

Unquestionably the finest blue and purple bicolor in the world. Standards are clear blue, falls deep rich mahogany, with a beard of red-gold. Regarded as the finest iris ever to come from England and a sensation wherever shown. In our own wet Northwest, in dry and sunny California, and in Nebraska, Ohio, and the colder Minnesota and New England, we found it blooming equally well. A super iris, if ever there was one.

**Each $4.00; three for $10.50; ten, $30.00**

## Surprise

Monster blue, flushed heliotrope, on stems up to four feet in height. The intense orange beard is a salient feature. This is our own introduction, and we are proud of the fact that it has been well received in all sections of the country. A fit companion to such blues as Santa Barbara, Loetitia Michaud, and Duchess Sarah. Bold foliage, almost evergreen.

**Each $3.50; three for $9.00; ten, $25.00**

# RARE AND RECENT NOVELTIES

On this page will be found a list of varieties which have been only recently introduced, and of which we have only a few plants. In many instances they are the gems found in gardens of growers here and there during the course of Iris visitations in 1930-31. We urge you to place your order for these as soon as possible, for our supply of stock is very limited.

## Brittoness

Pale lemon-cream, of Moonlight derivation. This flower was blooming magnificently in the Schriener garden in St. Paul last June, and was a favorite of Robert Sebriener as well as myself. A very new introduction from England which has had little publicity, but is deserving of a place among the iris aristoeraey. Blossoms of great size, slightly ruffled, splendid stem and branching habit.

**Each $4.00**

## Blue Velvet

Few irises have received more favorable comment during the past two years than has this rich velvety seedling from the hand of Dr. Loomis of Colorado Springs. An iris of the Swazi type, larger, bluer, and finer in every way. Not very rapid of increase, it will be in demand for a long time to come.

**Each $14.00**

## Camelliard

Fairly recent, not especially rare, but one of the best and most brilliant light type variegatas. Towering to four feet or more, a clump is a distinctive, high-light in the garden. Standards clear amber yellow, falls flushed light purple, yellow near the edges. One of Miss Sturtevant's best.

**Each $2.00; three for $4.50**

## Elsinore

A flower but little known, and one which is deserving of greater popularity. I found it blooming in splendid form in several gardens in New York, Connecticut, and about Boston, and it made an instant hit with me at least. Of only medium size, its dainty blossoms of pale primrose-yellow are delicately edged and stained violet, and are produced abundantly. Something different. Try it.

**Each $1.25; three for $3.00**

## Erebian

A self of rich, dark, bordeau red, lightened by a heavy gold beard. This iris, another of Dr. Loomis' wonderful seedlings, was one of the finest things I saw at Freeport in 1930. I was happy to add it to our own collection this past season.

**Each $14.00**

## Messaline

One of the fairly recent French sorts which is known to but few growers. The standards of this iris are especially gorgeous, appearing as if covered with gold dust; the underlying color is light chamois. Falls are corinthian red, striped cream and buff. A large and tall iris, with broad foliage tinged purple at the base. We have built up a nice stock and offer it at a very reasonable price.

**Each $2.50; three for $6.00; ten, $18.00**

MR. SHULL AND "MOON MAGIC"

## Moon Magic

I was privileged to visit Mr. Shull's own garden in Chevy Chase last May, and found this excellent iris at its very best. It is of a general buff-yellow tone, smooth and creamy in texture, of wonderful form. There is little doubt in my own mind but that Moon Magic will be proclaimed as Shull's greatest achievement since he gave us Morning Splendor. The accompanying photo gives a good idea of the oppulence of bloom, branching, and general all-'round good qualities which go to make this an iris of rare merit.

**Each $8.00**

## Blackamoor

Nearly black until half opened, then taking on deepest blue tints, with a blue beard. A giant flower on a tall and heavy stalk, finely branched.

**Each $12.00**

## Lodestar

A variegata with brightest yellow standards, and very dark falls. It made a fine showing in Mr. Wister's garden last June, and I was pleased to find a beautiful clump in Mr. Wayman's display on Long Island. Of such perfection in every way that I felt I could not do without it, even though we have two richly colored irises of this type in Crown Prince and Beau Sabreur. Lodestar is quite different from either of these.

**Each $2.00**

## Los Angeles

Sister seedling of the wonderful plicata San Francisco. A giant in size, snowy white, with faint edgings of lavender-blue. Splendid stalks were on exhibit in the St. Paul iris show, and it was growing and blooming lustily in the Schreiner garden in that city, indicating that it is really quite hardy when once acclimated.

**Each $2.00; three for $4.50**

## Mary Geddes

A genuine novelty. "Indeed, it is one of the most stunning in color I have seen this year—or any year. It was so lovely we returned to it several times, going the following day to see it in its home garden, where it stood out among hundreds of seedlings. It is tall, the bloom well placed on a nice stalk. A self color of light ochraceous salmon, which should intrigue one planning for color in the garden."—Mrs. Hires, in A. I. S. Bulletin for July, 1930. A seedling raised by T. A. Washington of Nashville, and introduced by Mrs. Thos. Nesmith of Lowell, Mass.

**Each $17.50**

## Nene

Has the reputation of being the world's largest iris, and it certainly is a genuine stunner. The flowers are of staggering size, up to nine inches in height, and are produced on stems which almost remind one of corn stalks. In addition to its size, Nene is really a beautiful iris, with lilac standards and falls of rich wine-red, darker at the haft.

**Each $6.00; three for $15.00**

## Nusku

Lovely old rose and yellow blend, a very luminous flower, tall and stately. Introduced by Mrs. Thos. Nesmith of Lowell, Mass., and my favorite of her seedlings. Flowers of large size, about three feet in height.

**Each $4.00; three for $9.00**

## Nurmahal

One of the two magnificent seedlings introduced by Col. Nicholls of Ithaca, N. Y., last summer. Standards deep brown, with a hint of violet, very large, circular, and domed. Falls very deep black-brown with a red undertone. Yellow beard. Of the Grace Sturtevant type, but a larger flower with better substance and much finer standards. A wonderful new iris that is sure to attract instant attention.

**Each $12.00**

## Red Dominion

The much-heralded garnet-red Dominion from Dr. Ayres, introduced last year by Quality Gardens. I thrilled at the sight of this iris two years ago when I saw it growing in the garden of the originator, and have always spoken highly of it since that time. While the standards are a shade lighter than the falls, it is practically a self in effect—a piece of rich red velvet. The buds are particularly striking.

**Each $20.00**

## Red Robe

An enormous bloom of perfect shape and habit, considered by Col. Nicholls as the finest iris he has ever turned out. Standards deep petunia-violet, domed. Falls deep red-violet, uniformly colored to the edge. Yellow beard. The flower is of splendid rounded shape, a brilliant, glowing iris that lights up in the garden like a huge ruby. This iris sold at sight when in bloom, and as a result was unobtainable later in the season last summer.

**Each $20.00**

## Rosakura

A Williamson introduction of high merit, the name of which I understand means "Rising Sun". Like our old and true friend, Morning Splendor, this new iris needs to be seen with the sun behind it to be at its best. Then the rosy-purple standards and the rich red-purple falls take on a magnificence and splendor seldom found in any iris. Mrs. Hires, noted iris critic, has remarked that Rosakura is among Williamson's masterpieces and her favorite of his 1930 introductions.

**Each $5.00; three for $12.00**

## Sachem

A glorified King Tut, grown by Dr. Loomis. Glorious in richest tones of red-brown, of heavy velvety texture. This, together with Erebian, was regarded as my choice of all the seedlings which Dr. Loomis had growing on trial at Mrs. Pattison's garden in 1930.

**Each $18.50**

## Sensation

A clear and crisp self of cornflower blue, perfect in every way. Sensation was awarded the silver cup for the most outstanding flower in the Boston iris show last June. It has no peer among the blue selfs.

**Each $2.50**

## Sunlight

A most luminous, tall yellow from Miss Sturtevant, large in size, and of extra good garden effect. The color is quite light, between cream and straw, with a beard of fiery orange-red. Free blooming and a tremendous increaser. This iris has been awarded an Honorable Mention by the American Iris Society when exhibited as a seedling.

**Each $7.50; three for $18.00; ten, $50.00**

# JAPANESE IRIS

There is a mistaken idea among some that these irises must be grown in or near the water. As a matter of fact, they should never be grown actually IN the water, but they will tolerate considerable moisture about the roots. However, they may also be grown right along with your other perennials, in any ordinary border, where their varied colors and types will prove a beautiful asset to any planting. Japanese iris prefer a rather rich soil, and a little peat moss will be of benefit, for they prefer a slightly acid soil condition. Never put lime into the soil or near them. They are absolutely hardy, but a mulch should be applied the first season to prevent heaving from frosts.

Our plants are of exceptionally fine quality, grown on new soil, and under intensive cultural methods. They are big and heavy, with numerous increase buds, and are certain to please you. Those who have purchased bearded iris from us in the past may be assured of the same superior quality plants in Jap Iris. Remember, we do not force our plants with fertilizer of any kind—it is the soil, climate, and cultivation which have built up a reputation for our iris plants.

Single varieties have three large petals, double ones have six.

## LIST OF VARIETIES

| | Per 10 |
|---|---|
| **ALICE BLUE.** Dbl. Large pale blue with yellow markings | $1.75 |
| **ANGEL'S DEN.** Dbl. Vinous purple; very good grower | 1.75 |
| **ASAGIRE.** Dbl. White, etched with blue; a lovely thing | 1.75 |
| **AYASI.** Sgl. White center, wide crimson edge | 1.75 |
| **AZURE.** Dbl. Mauve blue, yellow blotch, dark halo | 2.50 |
| **CLOUD DRESS.** Dbl. Grey, lined heavily with purple lines | 1.75 |
| **CLOUDY SKY.** Dbl. White center, tipped crimson red | 2.50 |
| **DOJI.** Dbl. Beautiful, white overlaid lavender | 1.75 |
| **FRANCES E. CLEVELAND.** Sgl. A gigantic blue-lavender; one of the best of all Japanese irises | 4.00 |
| **GENJIYAMA.** Dbl. Rich dark purple, long orange blotch and a halo of blue | 2.50 |
| **GOLD BOUND.** Dbl. Large, pure snow white, gold bar | 1.75 |
| **HATSUKI.** Sgl. Uniform purple blue; very attractive | 1.75 |
| **HIMONO.** Sgl. Dark cerise, style branches white, crests purple | 1.75 |
| **HOLLYHOCK.** Sgl. Medley of lavender and blue, and a very lovely thing indeed | 5.00 |
| **HOSOKAWA.** Dbl. Purple blue, with white lines radiating from golden bar at center | 1.75 |
| **HOTARI.** Sgl. Beautiful light lavender, veined purple | 2.50 |
| **J. A. HAYDEN.** Dbl Splendid violet blue; extra good | 2.50 |
| **JOSEPHINE HEYWOOD.** Sgl. Bright blue, vivid purple sheen | 2.50 |
| **KAGARABI.** Sgl. Fine light lavender, veined red purple | 1.75 |
| **KASAGA.** Sgl. Crimson purple, slightly edged white | 2.50 |
| **KASUGANO.** Dbl. Plum purple, darker pencilings | 1.75 |
| **KOHIO.** Dbl. Light lavender ground, densely mottled and veined purple; an extra fine thing | 5.00 |
| **KOKO-NO-IRO.** Dbl. Fine large red purple with prominent orange blotch | 1.75 |
| **KOMACHI.** Dbl. Deep violet purple variety of great beauty | 1.75 |
| **KOMBARIN.** Dbl. Extra fine early white | 1.75 |
| **KOYKA.** Dbl. Dark blue purple, splashed lavender | 2.50 |
| **KUMONO.** Dbl. Lavender, veined white, yellow center | 1.75 |
| **KURO KUMO.** Dbl. Deep purple, overlaid with blue | 1.75 |
| **MARJORIE PARRY.** Dbl. Delicate light mauve with tufted center | 2.50 |
| **MONIJA.** A fine dark crimson purple, edged with white | 4.00 |
| **NEPTUNE.** Sgl. Beautiful dark blue, large orange blotch | 2.50 |
| **NISHIKA.** Sgl. Large crimson purple, penciled with white | 2.50 |
| **OTOMENE.** Sgl. Tall royal purple, overlaid lavender; one of the finest things in this list | 5.00 |
| **PARAGON.** Sgl. Beautiful large flowers of deep purple | 2.50 |
| **RISHONO.** Dbl. Red purple, overlaid brilliant blue | 1.75 |
| **SHIGA.** Dbl. Reddish blue, very large petals | 1.75 |
| **SHIKARI.** Dbl. Claret wine, bright orange throat | 2.50 |
| **SHIMOYO.** Sgl. Heavily veined violet on a grey ground | 1.75 |
| **SHORYUI.** Sgl. White, shaded and overlaid purple blue | 1.75 |
| **SUIBYIN.** Sgl. Very beautiful dark purple, veined white | 2.50 |
| **SURI.** Sgl. Grey ground, slightly overlaid blue | 5.00 |
